ABSTRACT

This factbook presents tabular data about students in postsecondary education in California, based on the State's computerized integrated student data system. The most recent data are for the fall of 1989 with some tables presenting trend data from 1980 to 1989. The factbook presents the data in six sections: (1) all students, with summarized information on all California colleges and universities (e.g., enrollment by ethnicity, sex, and type of institution); (2) participation rates, with enrollment patterns by various demographic categories; (3) first-time freshmen and new students, containing information on recent high school graduates, the origin of first-time freshmen, average age of these freshmen, and their sex and ethnic distribution; (4) transfer students, presenting information on community college transfers to the State's universities as well as transfer students from other segments; (5) student outcomes, such as number of degrees awarded; and (6) area-specific student data, including information on high school graduates and college-going rates by county, and community college transfer students by community college. Summary

This first edition of *Student Profiles* seeks to provide comprehensive information about students in postsecondary education in California. It contains information on first-time freshmen and transfer students that used to appear in other Commission reports as well as many new facts from the Commission's computerized integrated student data system. Unlike most Commission reports, it contains little textual comment and analysis about the data. Instead, the Commission hopes that it will provide the basis for such analysis by others.

Student Profiles is divided into these six sections:

1. *All Students*, which provides information about all of California's college and university students in order to provide a context for later sections and an overview of how California's student body has changed over the last decade.
2. *Participation Rates*, containing information about rates of enrollment in California higher education for various demographic categories of students as developed by the California Department of Finance.
3. *First-Time Freshmen and New Students*, reporting information regarding recent high school graduates, the origin of new first-time freshmen, average age of these freshmen, and their sex and ethnic distribution.
4. *Transfer Students*, offering information on community college transfers to the State's universities as well as transfer students from the other segments.
5. *Student Outcomes*, reporting the number of degrees awarded by California's colleges and universities and which eventually will report graduation rate, student attrition, and persistence information.
6. *Area Specific Student Data*, providing information on high school graduates and college-going rates by county, and community college transfer students by community college.

The Policy Development Committee of the Commission discussed this report at its meeting on October 29, 1990. Additional copies may be obtained from the Publications Office of the Commission at (916) 324-4991. Questions about the substance of the report may be directed to Marc C. Irish, Director of Information Systems of the Commission, at (916) 322-8002.

Introduction

THIS IS the first edition of *Student Profiles*, issued by the California Postsecondary Education Commission to provide comprehensive information about students in postsecondary education in California. *Student Profiles* contains a wide-ranging set of graphs and statistical tables that allows readers to gain an understanding of the characteristics of California students as well as trends in these characteristics, including eligibility for college and university admission, enrollment, transfer, and program completion. Unlike most Commission reports, *Student Profiles* contains little textual comment and analysis about the data. Instead, the Commission hopes that it will provide the basis for such analysis by others.

The primary purposes of *Student Profiles* are fivefold:

1. To provide a context to facilitate policy analysis by presenting a global view of students in California;
2. To permit prompt response to basic inquiries regarding student information;
3. To serve as a basic source of data for research;
4. To function as the Commission's "official" guide to student statistics (that is, by supplying correct, agreed-upon data, even if disagreement exists about how these data might be used in different policy analyses); and
5. To stimulate the production of special topical reports when specific trends in higher education warrant more detailed analysis and description.

Organization of the profiles

Student Profiles is divided into these six sections:

1. *All Students*

The first section provides information about all of California's college and university students in order to provide a context for later sections and an overview of how California's student body has changed over the last decade.

2. *Participation Rates*

The second section contains information about rates of participation in California higher education for various demographic categories of students as developed by the California Department of Finance. Data in this section highlight how well or poorly various groups of students are doing in terms of access to higher education. These data might be used to model what could happen to enrollment levels with changes in participation rates.

These participation rate data differ from the Commission's traditional college-going rate in that they are based on total population in the State whereas the college-going rate is based on recent high school graduates. While the college-going rate data works well for projecting enrollment at the University of California and many accredited Independent institutions, it is less appropriate for the California State University and the California Community Colleges because their students tend to be older when they enroll in college. Thus, for long-range planning purposes, participation rates provide a better indicator of enrollment trends.

3. *First-Time Freshmen and New Students*

This third section includes data that were formerly displayed in the Commission's annual *College-Going Rates* reports. In addition to information regarding recent high school graduates, data in this section reflects the origin of new students, average age of all first-time freshmen, and sex and ethnic distribution of new students.

4. *Transfer Students*

This fourth section contains information on community college transfers as well as facts about transfer students from the other segments. The Commission previously published this information in its annual

Update of Community College Transfer Statistics. However, information in this section has been expanded in order to portray a more accurate sense of student flow, including transfers between campuses of the same segment and "reverse transfer" students -- those who begin their higher education in a four-year institution and then transfer to a community college.

5. *Student Outcomes*

The fifth section of this first *Student Profiles* report provides information on student outcomes. Ultimately, the Commission would like to present information beyond simply reporting the number of degrees awarded by California's colleges and universities including graduation rate, student attrition, and persistence information once student-specific data based on unique student identifiers is available. In the absence of student identifiers, the Commission intends to include more information in subsequent *Student Profiles* based on the results of its current student cohort study.

6. *Area Specific Student Data*

The sixth and final section of *Student Profiles* provides information on high school graduates and college-going rates by county and on community college transfer students. These tables were previously published in the Commission's annual *College-Going Rates* report and its annual *Update of Community College Transfer Statistics*, respectively.

Sources of the data

California's colleges and universities are the sources from which the Commission assembles *Student Profiles*. The State's public universities and four-year colleges submit all of their enrollment and degree data to the Commission on machine-readable magnetic computer tape. The California Community Colleges submit their data to their Chancellor's Office, which currently transmits only their enrollment data to the Commission on tape and their degree data on hardcopy survey forms. California's independent colleges and universities submit all of their data to the Commission using hardcopy survey forms generated from the National Center for Education Statistics Integrated Postsecondary Education Data System (IPEDS) of the United States Department of Education.

Categorization of independent institutions

In order to reflect the diversity that exists within California's independent sector of higher education and to facilitate meaningful comparisons with their public-sector counterpart institutions, the Commission arrays data from the State's independent colleges and universities in three groups that are comparable to the public segments. The criteria used by the Commission to establish these groups were (1) the set of high school courses required by the institution for admission; (2) the range of acceptable admission test scores for incoming students; and (3) the minimum high school grade-point-average required for admission. The three groups are:

1. Independent institutions with admission standards comparable to the University of California;
2. Independent institutions with admission standards comparable to the California State University; and
3. Two-year independent institutions.

The following list identifies these institutions by their group classification:

Group 1

1. California Institute of Technology
2. Claremont Graduate School
3. Claremont McKenna College
4. Harvey Mudd College
5. Loyola Marymount University
6. Mills College
7. Occidental College
8. Pepperdine University
9. Pitzer College
10. Pomona College
11. Saint Mary's College of California
12. Santa Clara University
13. Scripps College
14. Stanford University
15. Thomas Aquinas College
16. University of the Pacific
17. University of Redlands

18. University of San Diego
19. University of San Francisco
20. University of Southern California
21. Westmont College
22. Whittier College

Group 2

1. Azusa Pacific University
2. Biola University
3. California Baptist College
4. California Lutheran College
5. Chapman College
6. Christ College Irvine
7. Christian Heritage College
8. College of Notre Dame
9. Dominican College of San Rafael
10. Fresno Pacific College
11. Holy Names College
12. Loma Linda University
13. The Master's College
14. Mount Saint Mary's College
15. Point Loma Nazarene College
16. Southern California College
17. United States International University
18. University of La Verne
19. Woodbury University

Group 3

1. American Academy of Dramatic Arts West
2. Brooks College
3. College for Developmental Studies
4. College of Oceaneering
5. Condie Junior College of Business and Technology
6. Don Bosco Technical Institute
7. D-Q University
8. Fashion Institute of Design and Merchandising
9. Marymount College, Palos Verdes
10. National Technical Schools
11. Queen of the Holy Rosary
12. San Francisco College of Mortuary Science

Data from only those independent institutions that have consistently provided data to the Commission over the last ten years have been included in the following tables, in order to allow trend analyses of the independent sector at large.

Finally, because the following information about the independent colleges and universities comes solely from their IPEDS survey forms, which provide data only in aggregate format, the Commission is more limited in how to present it than for public institutions. In addition, those survey forms do not collect all of the information that the Commission collects through its individual student record data system.

Caveats

Three limitations of all the following data should be noted:

- One is simply that the statistics involve actual numbers of students -- "headcount students" -- rather than calculations of full-time-equivalent students.
- The second is that while *Student Profiles* includes statistics on students in the State's four major segments of higher education -- the California Community Colleges, the California State University, the University of California, and California's regionally accredited independent institutions -- it does not cover statistics on two other areas of interest to the Commission: (1) the State's private institutions that seldom submit student data to the Commission -- its non-accredited degree-granting colleges and universities, and its non-degree-granting institutions such as business schools and flight-training institutes -- and (2) California students attending college in other states. Both of these types of statistics are needed for *Student Profiles* to present a fully comprehensive picture of college-going behavior on the part of California's young people.
- Third, data for some years for some independent institutions have been imputed in order to more accurately portray the student characteristics of these institutions.

Format of report and availability of data

The Commission publishes *Student Profiles* in a loose-leaf format to fit in three-ring binders so that additional tables can be added easily to the report. This allows the Commission's staff to provide updates to particular tables on a more timely and regular basis than might otherwise be possible. In ad-

dition to the published report itself, the Commission provides the data contained in this report on floppy disk or magnetic computer tape. (The data tables were created using Excel and the graphics were created using Excel and Harvard Graphics.)

Feedback about the report

Student Profiles will be published annually by the Commission as part of its "postsecondary education information clearinghouse" responsibilities. This year, the Commission staff plans to improve the quality and usefulness of these profiles by soliciting feedback from the segments and others. In addition, Commission staff plan to work with the segments to obtain new information about student access to higher education, particularly that proposed by SB 507 (Hart) about student application, admission and enrollment patterns for freshmen and transfer students. The Commission will request the participation of the segments, through an intersegmental advisory committee, for these purposes.

The Commission appreciates receiving comments about how to make this report and its other documents more useful as well as feedback about any errors of omission or calculation that should be corrected to make it more accurate. Please send your comments to Marc Irish, Director of Information Systems, California Postsecondary Education Commission, 1020 Twelfth Street, Third Floor, Sacramento, CA 95814-3985; telephone (916) 322-8002.

CALIFORNIA POSTSECONDARY EDUCATION COMMISSION

THE California Postsecondary Education Commission is a citizen board established in 1974 by the Legislature and Governor to coordinate the efforts of California's colleges and universities and to provide independent, non-partisan policy analysis and recommendations to the Governor and Legislature.

Members of the Commission

The Commission consists of 15 members. Nine represent the general public, with three each appointed for six-year terms by the Governor, the Senate Rules Committee, and the Speaker of the Assembly. The other six represent the major segments of postsecondary education in California.

As of February 1990, the Commissioners representing the general public are:

Mim Andelson, Los Angeles;
C. Thomas Dean, Long Beach;
Henry Der, San Francisco;
Seymour M. Farber, M.D., San Francisco;
Rosalind K. Goddard, Los Angeles;
Helen Z. Hansen, Long Beach;
Lowell J. Paige, El Macero; *Vice Chair;*
Cruz Reynoso, Los Angeles; *Chair;* and
Stephen P. Teale, M.D., Modesto.

Representatives of the segments are:

Meredith J. Khachigian, San Clemente; appointed by the Regents of the University of California;

Theodore J. Saenger, San Francisco; appointed by the Trustees of the California State University;

John F. Parkhurst, Folsom; appointed by the Board of Governors of the California Community Colleges;

Harry Wugalter, Thousand Oaks; appointed by the Council for Private Postsecondary Educational Institutions;

Joseph D. Carrabino, Orange; appointed by the California State Board of Education; and

James B. Jamieson, San Luis Obispo; appointed by the Governor from nominees proposed by California's independent colleges and universities.

Functions of the Commission

The Commission is charged by the Legislature and Governor to "assure the effective utilization of public postsecondary education resources, thereby eliminating waste and unnecessary duplication, and to promote diversity, innovation, and responsiveness to student and societal needs."

To this end, the Commission conducts independent reviews of matters affecting the 2,600 institutions of postsecondary education in California, including community colleges, four-year colleges, universities, and professional and occupational schools.

As an advisory planning and coordinating body, the Commission does not administer or govern any institutions, nor does it approve, authorize, or accredit any of them. Instead, it cooperates with other State agencies and non-governmental groups that perform these functions, while operating as an independent board with its own staff and its own specific duties of evaluation, coordination, and planning,

Operation of the Commission

The Commission holds regular meetings throughout the year at which it debates and takes action on staff studies and takes positions on proposed legislation affecting education beyond the high school in California. By law, its meetings are open to the public. Requests to speak at a meeting may be made by writing the Commission in advance or by submitting a request before the start of the meeting.

The Commission's day-to-day work is carried out by its staff in Sacramento, under the guidance of its executive director, Kenneth B. O'Brien, who is appointed by the Commission.

The Commission publishes and distributes without charge some 30 to 40 reports each year on major issues confronting California postsecondary education. Recent reports are listed on the back cover.

Further information about the Commission, its meetings, its staff, and its publications may be obtained from the Commission offices at 1020 Twelfth Street, Third Floor, Sacramento, CA 98514-3985; telephone (916) 445-7933.
